## **GT's Inspection Division**

### **Third Party Inspection, Shut down, Technical Manpower supply & in-service API/NDT inspections.**

GT's inspection division assists the industries to source and deploy strong and talented API/NDT manpower for oil refineries, petroleum refining, petrochemicals and power generation sectors on contract. (Short or Long term)

GT inspection services with their experienced inspectors ensures to minimize client's down time and get the most comprehensive information possible on the condition of their Equipment.

GT's inspectors are highly trained API/NDE professionals and meet or exceed all industry requirements. GT provides extensive in-house training and ensures all of our API/NDT professionals are current on all relevant industry codes and standards. GT is committed to establish new inspection solutions for clients.

GT's qualified personnel have worked on various projects in India, Africa, and Fareast and in the Gulf region in various disciplines of API/NDT such as Radiography, Ultrasonic, and Welding, MPI, In-situ metallography & Positive Material Identification. The inspection personnel have worked on design, fabrication, construction, inspection and erection of Pressure Vessels, Heat Exchangers, Towers, Stacks, Tanks, Plant Pressure Piping, Offshore oil wells and many advanced projects.

In an industry where safety and compliance are increasingly becoming the focal point of an organization, customers count on GT's In Service Inspection Services to provide access to certified professionals who are committed to maintaining partnerships that garner trust.
